FunctionUp   (September 19, 2022 - Present)
Backend Developer Trainee

- As a Backend Developer Trainee, I have been trained in backend development using technologies such as JavaScript, Node.js, Express, and MongoDB. I have also worked on React projects and implemented Redis and AWS S3 on these projects.
- I have demonstrated strong teamwork, adaptability, and timely deliveries in my previous roles. Additionally, I have actively participated in various coding competitions organized by FunctionUp on platforms like Codezinger and Leetcode.
- Overall, my skill set includes a strong understanding of backend development concepts, and experience in working on projects in a team environment, and a dedication to delivering high-quality work within strict deadlines.
